-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction

Based on the amendment to claim 10, proper restriction is required below since the scope of claim 10 has changed as compared to the previous scope, which was broad to encompass the features of claim 1 previously claimed. In particular, the shipping step now requires that one end of the flexible connecting member be connected to the connecting structure and another end of flexible connecting member be connected to the body.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 4-7 and 9, drawn to a novelty system, classified in class 403, subclass 229.
- II. Claims 10 and 11, drawn to a method for constructing a connecting connector, classified in class 403, subclass 410.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of assembly and product for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different product, or (2) the product as claimed can be used to practice another and materially different process. (MPEP §

Art Unit: 3679

806.05(e)). In this case, the product can be used to attract birds for hunting, or display the product as a decoy.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Yun Y. Lee on January 13, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ernesto Garcia whose telephone number is 571-272-7083. The examiner can normally be reached from 9:30-5:30. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel P. Stodola can be reached at 571-272-7087.
